

## Claims

What is claimed is:

1. Clock - Learning aid Combination comprising:

- a. a device to display learning material (for example, thesaurus, geographical terms, meanings of words, spelling, historic events and names);
- b. clock to display time and date;
- c. means to supply power.

whereby educational materials displayed adjacent to display of time will be frequently looked at throughout the day. This fact will enhance memorization of the learning material.
